 ONION SKIN

GREENHILLS
MEDIA GROUP

Banyule Nillumbik Tech School is excited to present our **brand new Future Animators** program in 2026. This program is presented by professional animator Colin Bennett, known via his successful YouTube channel as Onion Skin (which has amassed over 60,000 subscribers). The program will teach students the basics of Toon Boom Harmony, the industry standard software which has been used to create shows such as The Simpsons, Bluey and Family Guy.

Held over 6 sessions on Mondays throughout Term 3, students will learn the art of movement, drawing techniques, compositing & rigging techniques, special effects and project planning & scoping. The 6th session will feature a showcase and awards.

Applicants are not required to have any animation experience but must be Year 7 or 8 and have a keen interest in drawing, animation, or digital artwork. Applicants will be asked to attach examples of their drawing skill to their application. This program will culminate in an awards showcase, with a first-place prize of a year's subscription to Toon Boom Harmony.

Applications now open!
Submit applications no later than 24th July

Use the QR code to complete the application form.
