

STUDENT AMBASSADOR

YEAR 9 & 10

DO YOU KNOW A FUTURE INNOVATOR?

Do you have students who love asking big questions, solving real-world problems, and exploring future possibilities? This is your chance to help them take charge, grow their leadership skills, and dive into the world of STEAM careers!

They will connect with like-minded students and discover exciting career pathways. This hands-on experience will use state-of-the-art tools and facilities to solve challenges that professionals face every day.

The Student Ambassador Program runs over a semester, with six immersive, full-day sessions at Banyule Nillumbik Tech School. Students will engage in project-based STEAM learning, community engagement, and teamwork development. The program culminates in a showcase where they'll pitch their real-world solutions to a panel of industry experts.

**Nominate students now so they
can step up and stand out.**
